

FIBER DISPENSING SYSTEM

Pre-cast Concrete Plants
Ready-mix Concrete Plants

*"It works.
Satisfaction is
guaranteed."*

*More Safety
Better Quality
Better Productivity*

Pre-Chopped Fiber Dispenser

Overview

Until today the main way to add fiber in concrete was to throw manually the required quantity into the mix. This was not convenient. It was almost impossible to distribute the fiber evenly and to dose it properly. Besides hand feeding is dangerous.

That is why VM Fiber Feeder manufactures and sells dispensing systems of reinforcing fiber.

It Works!

VM Fiber Feeder System are gaining quick acceptance in the United State of America. The advantages of the system are well recognized and the following companies have already installed and used the system:

- Volumetric by Strong, Texas
- Reimer International, Canada
- Short Loads, Florida and Louisiana
- Advantage Concrete, Florida
- W.T. LISTON CO. (Precast concrete), TX
- ...
